DEVELOPMENT EXPERIENCE

Vue 3 Job Tracker (PWA-ready)

- Developed a comprehensive job application tracker using **Vue 3, Pinia, Tailwind CSS v4, and TypeScript**.
- Explored Vue's Composition API, comparing it to React for state management and component architecture.
- Implemented a clean, responsive UI entirely with Tailwind CSS, drawing inspiration from industry best practices.
- Integrated **ApexCharts** for customisable data visualisation and **Firebase** for real-time data updates and admin-only authentication.
- Designed as a Progressive Web App (PWA) with offline capabilities and fast load times.
- Leveraged AI tools (GPT, Gemini, Claude) extensively for logic, debugging, and design decisions, enhancing development efficiency.

PWA React App (Tattoo Studio Website)

- Designed and developed a fully responsive, PWA-ready website for a tattoo studio using **React, Styled-Components, and Framer Motion** for animations.
- Features include browser language and theme detection, user-adjustable settings, and a custom PWA installation flow.

Real-time React Native Chat App

- Developed a real-time Android chat application with user **authentication, push notifications**, smooth animations, and a flexible, user-friendly interface.

Dynamic React-Redux Calculator

- Built a dynamic calculator replicating Windows calculator logic and functionality using **React hooks (useState) and Redux Toolkit (RTK)** for state management.

Vanilla JS Personal Portfolio Page

- Created a dynamic portfolio showcasing signature projects, implementing features like **lazy loading** and **pop-state** event manipulation using **vanilla JavaScript**.
